

Full-Service End of Life & Obsolescence Management

First Full-Service-Provider for "multi database tracking" in Europe

- Up-to-date monitoring and availability predictions of components
- Monthly BOM analysis reports on current and future availability of components
- Ad-hoc messages if discontinuations or sudden supply problems occur
- COTS (Commercial-of-the-shelf) module monitoring

- Comprehensive analysis based on multiple databases (incl. RoHS (CE), REACH information)
- Available documentation such as data sheets, specs, etc.
- Indication of alternative components and current aftermarket availability

- Comprehensive Proactive Obsolescence Management - "Outsourcing" of your problems
- Evaluation is performed via MS Excel or own web-LogIn
- Complete correction of your configuration data (keyword: "traceability")
- No additional investment in personnel, hardware or software

Config-Part Number	System Quantity	Nomenklatur (Config-PN)	Mfr. Part Number	Manufacturer	Part Type	Availability Status	2 Year Status	4 Year Status	8 Year Status	Years To Obsolete	Life Cycle Code	Obs. Score
