

Obsolescence
Management

Finally
safe from
surprises.

Topic: Obsolescence Management

Do the lifecycles of your systems no longer match the lifecycles of required components and spare parts?

This seminar is intended to provide you with **relevant knowledge on problem solving** with Obsolescence Management. It introduces participants to the field of Obsolescence Management and supports those with prior knowledge to gain more detailed insights in this field.

This seminar is also a **prerequisite** for progression to certification **Obsolescence Manager "IIOM Associate Grade"**.

Objectives:

This two-day seminar workshop examines and demonstrates the origins of obsolescence as well as how to **counter the effects** with comprehensive - reactive, proactive and strategic - Obsolescence Management.

In addition, the two days of the event leave plenty of room for a range of **practical workshops and detailed analyses**. Contractual aspects and legal framework conditions will also be discussed.
